Amendment #__ to the Superfund State Contract
For Remedial Action at the [name of facility]
[City, State]

THIS AGREEMENT as entered into on [date of original SSC] between [State], [responsible state agency] (hereinafter referred to as "the State") and the U.S. Environmental Protection Agency, Region [number] (hereinafter referred to as "EPA") is hereby amended to administratively close the Superfund State Contract (SSC) pursuant to 40 CFR 35.6820 for the [name of facility].

In order to provide administrative closure to this Contract, the signatories concur through this amendment to this Contract that:

- i. response activities under this Contract have been satisfactorily completed (See 40 CFR 35.6805(q) and Inspection of the Remedy provision);
- ii. final financial reconciliation for this Contract has been completed (See 40 CFR 35.6805(k) and Final Financial Reconciliation provision) (See Attachment A Excel Spreadsheet);
- iii. the State has accepted transfer of any Federal interest in real property (See 40 CFR 35.6805(i)(4) and CERCLA Assurance: Real Property Acquisition provision), as applicable; and
- iv. the State has assumed responsibility for all future Operation & Maintenance (O&M) (See 40 CFR 35.6805(i)(1) and CERCLA Assurance: O&M provision), as applicable.

After the administrative closure of this SSC, EPA may continue to monitor compliance of the State's assurance to provide for all future O&M as required by CERCLA §104(c).

Although this Contract is administratively closed, this Contract, specifically the O&M assurance provision, will remain in effect as long as O&M is required at this Site, unless the Contract is terminated pursuant to this subparagraph.

The final conclusion of this SSC shall only occur once O&M is concluded pursuant to a new amendment to this Contract, a PRP has taken over O&M requirements for the Site and this Contract is terminated, or this Contract is terminated for other reasons (See Termination of this SSC provision).
